

Press Release
August 12th 2011

NEW DIGITAL MEDIA LOCKER™ (AQ-DM-4) FROM AQUATIC AV

Campbell, California based company Aquatic AV announced the release of their new Digital Media Locker™ - a perfect sound solution for every outdoor need.

A unique water and dust proof media locker, rated IP65, the AQ-DM-4 is compatible with iPod, MP3, and FM radio.

Its powerful built-in amplifier drives up to four external loudspeakers, plus a stereo RCA aux' output allows for external amplification to be used for extra power or zones. DSP EQ provides powerful sound sculpture for high quality audio and EQ control, along with standard front/rear fade, balance and bass/treble control.

iPod and MP3 control is taken care of remotely, using the IP67 rated Remote Commander, featuring back-lit LCD display for song and menu info, plus a range of 40ft in bright sunlight! And it doesn't stop there - a 12 volt trigger is also provided for remote control of external devices such as deck or spot lights!

The AQ-DM-4 has a compact size to allow easy flush mounting in any outdoor, wet or dusty environment, including boats, spas, ATV/UTVs, Jet skis, showers, BBQs and more!

PLACE YOUR ORDER TODAY, FOR DELIVERY SCHEDULE 20th AUGUST 2011
